

Earth in Transition

Amended Timeline

Global

Feb 2005 . . .

Much mortality amongst the common people
Great destruction of fish and fowl and such things as live in or near the sea
Drying up of rivers
Makes the sea coast unfortunate

Feb 2006 . . .

Slaughter of sheep and beast of the field.
Famine, sickness, pestilence.
Tempests and strong winds, hurricanes.

Epidemics, plagues, global viral contagions, tropical disease
spread through the four directions, seven oceans and seven continents
will cloud the skies, blotting Heaven's face – millions of lives lost

Global Safe Havens established – sweet water, Angelic protection

Global Economic Recession – gradual demise of the international money market, triggered by the collapse of the Japanese economy

United Nations – intensive restructuring and downsizing - root of separatism pulled from its heart

Global humanitarian/international aid/medical bodies – intense pressure and activation of all resources

Safe Havens in every continent

Mid 2006 . . .

Trouble for Kings, princes and great Men
Exile, murder or imprisonment of king, notable person or great ruler
(i.e. Presidents/Parliaments World Leaders)
Destruction of cattle and sheep
Much discontent and dissension among the people
Movement of armies, fighting
Fires, fevers, pestilence
Scarcity of the fruits of the earth

Dec 2007 . . .

Unhappiness to great men
Transmigration of some king
Rebellion of noble and common people
Scarcity of corn and products of the Earth by drought
Causes earthquakes, mining disasters and great agricultural depression

June 2008 . . .

Disturbs the air and causes great changes and alterations in the weather
Denotes much mortality amongst the common people
Great destruction of fowls and fishes and such things as live in or near the sea

December 2008 . . .

Pestilence and many evils among mankind
Destruction of cattle and sheep
Exile or imprisonment or murder of some king, notable person or great ruler
Much discontent and dissension among the people
Movement of armies, fighting, fires, fevers, pestilence and scarcity of the fruits of the earth

POLE SHIFT - SHIPS OF LIGHT

Indian Ocean & Antarctic

August 2005 . . .

Countries bounded by it including:-

Western Australia, East Indies, India, Pakistan, Iraq, Iran Saudi Arabia and Africa

Indian Ocean . . has its part to play in the rebirth of planet earth. This ocean will change its outer peripheries over the course of the next decade. Depth, circumference, volume of the ocean may change considerably.

New lands will emerge at some point in the future.

Sea currents will destabilize the Antarctic region with devastating global effects.

Pacific Ocean

Feb 2005

West Coast America - Pacific Ocean displacement /tectonic activity

Panama Straits the weak link - Pacific Ocean boils like oil

Disruption of the Pacific Ocean current . . . environmental, economic chaos

USA – share or perish

Canada – radical geo-physical change – (polar change), crop failure, severe winters

Central America – Mexico - Popocatepetol – volcanic eruption

Safe Haven - Venezuela – despite severe coastal inundation

Mid 2007 . . .

South West Pacific Basin – tidal waves moving towards New Zealand. These beautiful islands marred by the power of the ocean. Precious little will remain.

December 2008 . . .

North West Pacific Basin - catastrophic displacement of the Pacific Ocean onto Japan, North America, Asia from the regional 130 degrees west upon the Equator. Pressure will be placed upon all land masses which are bounded by the Pacific ocean yet none so great as that which will be brought to bear upon the region of Panama, linking North and South America. Tsunamis in all directions to

West Coast North America

Central America

North Western coast of South America

North Pacific islands

New guinea

Philippines

China

Japan

Asia Pacific Region

August 2005

Malaysia – economic, environment and social upheaval

Indonesia - racial, political violence

East Timor & Irian Jaya freedom or **Ring of Fire** activates

Centre of the Pacific Ocean – tsunamis issue forth towards **New Britain and New Hebrides**

South China Sea - oceanic change affecting **Philippines and Mainland Asia**

Papua New Guinea, Queensland, Coral Sea Possible tsunamis depending upon domestic and foreign policy

Feb 2006

Indian Ocean Tectonic activity – bed of the Indian Ocean shifts -New lands will rise in the Indian Ocean

Antarctica – destabilized – global sea levels rise

Western Australia – severe inundation of the Western Australian coastline & crop/farm failure will bring this state to its knees

Central Australia – great magnitude changes

Queensland & Torres Strait Islands– in the path of the largest rolling tidal waves known in white history

Coral Sea – possible buffer for **North Queensland** – response to world crisis

Japan – rapid decline in its economy leading to worldwide ramifications. Volcanic eruptions and oceanic invasion leading to total destruction.

New Zealand – receiving the full force of the South Pacific upheaval leading to severe environmental and economic damage.

Safe Haven - Australia - now and for future generations

Northern Territory – north of Uluru – transformation and restitution of the lands to the indigenous people

August 2006 . . .

Caucasus mountains – (between Black Sea & Caspian Sea) major tectonic activity

Asia Minor – land mass which connects Europe to Asia – undergo significant geomorphic changes

South Pacific Ocean -- massive oceanic shifts – Pacific Ocean bed will drop then tsunamis from the Central Pacific Basin will issue forth

Polynesia, Melanesia, Micronesia and the Caroline Islands including Cook Islands, Samoan Islands, Tonga, Vanuatu, Fiji, Solomon Islands, New Caledonia, Norfolk Island – severely affected and largely destroyed/devastated due to this Pacific Ocean tidal wave activity and rising sea levels. Saltwater inundation will make most atolls uninhabitable – no freshwater.

Papua New Guinea & surrounding islands – large scale devastation from Pacific Ocean tidal waves

Australian East Coast & Tasmania – large scale devastation from Pacific Ocean tidal waves – coastal regions relatively unsafe

New Zealand – large scale devastation from Pacific Ocean tidal waves

Safe Havens – Central Victoria & Adelaide Hills, Central Australia, High Country

Mid 2007 . . .

Armenia - volcanic and tectonic instability – need to retreat to safer ground

South Vietnam – invasion of the sea coast, typhoon damage, severe crop failure, flood and drought

China – waters of the Yangtze will flood extensively spreading disease and pestilence. Virulent disease will spread in the food chain. Economic hardship will be widespread

China Sea will wash over many of the coastal cities

Northern Siberia – oceanic invasion via the East Siberian and Laptev Seas little disruption. Polar meltdown brings release of nuclear waste from beneath the North Pole

Antarctica – transformation through Fire, Earth, Air and Water

Safe Haven - Siberia & Ural Mountains
Safe Haven – Tibet and the Himalayan Plateau

December 2008 . . .

Laos, Cambodia, Vietnam – protected from the worst of the environmental and economic woes, but the coastal regions are relatively unsafe.

Mongolia – they will survive the Changes because of their geographical isolation and in the future become a haven of life.

Burma - opportunity for democracy for the lion-hearted

Northern Sumatra Indonesia – complete inundation by the ocean unless the ethnic tensions are cleansed

Borneo – complete inundation by the ocean unless the ethnic tensions are cleansed

Safe Haven - Thailand – by and large some of the largest changes to affect other regions of Asia will bypass this region. Will become a Haven of SE Asia

Europe

August 2005

Switzerland – WWII karma – Alps Will of God

Italy – social, political, economic and geophysical changes of the greatest order

Papacy – corruption Vatican – transformation of the worldwide Catholic Church

Sicily - Mediterranean seascape changes – need to relocate to higher ground

Greece – changing fortunes

Bosnia-Herzegovina - cry for freedom

Feb 2006 . . .

Great Britain Mighty ship riding on troubled waters. An anchor in chaotic Europe. Protection up until 2007 then large scale changes. Economic troubles in Europe may affect her.

Wales need to open their borders

Iceland severe environmental impact. Insularity

Denmark - massive inundation from the North Sea which will destroy much of the life and substance

France – law unto themselves – suffer as they have made others suffer. Loss of life and security

Germany – large scale environmental degradation Black Forest – emerge as a leader of the New Europe

Portugal - severely tested. Government needs to make a humanitarian platform

Spain - suffer greatly. Mountain ranges will fall. Oceans and seas will rise in protest, crops will fail, people will suffer.

Russia - uprising from the common people leading to social chaos, political and economic collapse. Out of this destruction will emerge a new Russia

Safe Haven - Poland
Safe Haven - Lithuania – protected from the severest changes

August 2006

Ireland – trouble past and a relatively bright future. Resolution of old karma – great hope. She will survive most of the changes.
Though there will be sustained damage to the West Coast

Holland – large scale devastation through Atlantic Ocean inundation

Sweden – power of the North Sea – power of ice

Austria – isolated during times of deepest transition

Greek Archipelago – the ocean will take much of the territory of Greece

Greenland - severe topographical adjustment – continent of ice and snow will be redesigned by the Avatar of Will. Reversion to Tropical and sub-tropical land

Turkey – large scale volcanic and seismic activity

Cyprus - totally destroyed

Black Sea – sulphurous waters – death then later clear, pure – life, food for communities

Afghanistan – yawning chasms open up

Red Sea – radical topographic change as a result of geological shifts of earth’s crust – expansion and contraction

Bosnia-Herzegovina – needs to be cleansed of hatred

Balkans - microcosm of humanity. Need to rally behind the Flag of Truth and Goodwill or great pain and suffering will follow.

Great Britain – Isles of Scilly of the SW Coast & Cornwall peninsula – severe inundation from the ocean – disruption to the fishing industry, economic impact to follow

English Channel – cracks in the Channel will appear – disrupt path to Europe

Channel Islands - violent storms, inundation from the North Atlantic Ocean.

Hungary - Danube River will carry disease, plague and viruses to many nations in Europe. This will sap the life of central Europe.

Belgium – waters of the ocean will wash over this country and all in its path

Bulgaria – liable to become involved in any full scale conflict emerging in the heart of Europe. Environmental degradation as a result of armies and refugees.

Safe Haven – Romania

Mid 2007 . . .

West Coast Scotland and Outer Hebrides - destroyed oceanic cleansing

Shetland Islands – buffered Oceanic cleansing

Finland – environmental and economic factors will be the teachers of the Finnish people.

Orkney Islands – Northern Scotland – majority of these islands partially or totally submerged.

Bosnia /Balkans - war/pestilence or learn to live in peaceful co-operation and common objectives. Healing and forgiveness needed

Albania – tinder box with a long fuse. Karma of Europe as a whole works out through this region. Healing and forgiveness needed.

Macedonia – humanitarian impulses or war and pestilence. War may spill over from the Balkans

Bulgaria – Black Sea holds a crucial role in this region. Work for the good of the community or they will rue the day.

Vatican – completely destroyed by a freak tidal wave which will emerge as a result of volcanic activity of the tip of Southern Italy.

Safe Haven – Scotland in the Grampian Mountains and Central Highlands

December 2008 . . .

Kosovo, Montenegro, Serbia, Bosnia Herzegovina – if hatred ethnic tensions and violence emerge then this poison will spread throughout Europe

Middle East

August 2005 . . .

Palestine – lessons of forgiveness – lands will rise up against them in great ferocity

Saudi Arabia – radical change in the cities and waterways

Safe Haven - in the desert in Saudi Arabia

February 2006 . . .

Israel – safety of the region in the hands of the people on the street & their chosen leaders. Need to bury the sword. Unite or perish
Syria - caught in the web of Middle East politics. Refuse to act from nationalistic self interest & move towards democracy.
Iran – brink of disaster. Unless radical humanitarian reform then severe geophysical and political ramifications will follow.

Mid 2006 . . .

Iraq - the battle for oil which is at the heart of this conflict will be eclipsed by environmental upheaval of the greatest order

Mid 2007 . . .

Fundamental Islamic Terrorism – the Earth will intervene in the name of Cosmic Justice. Put down the Sword of Sorrow otherwise great doom will come upon the Middle East and other parts of the planet.

Iraq - waters of the Arabian Sea will wash over much of the coastal regions laying waste the land

Indian Sub Continent

Feb 2006 . . .

India mighty inundation in the Bay of Bengal

India - southern provinces rent asunder by geo-physical activity.

Pakistan – the mountains of northern Pakistan and the Arabian Sea will together engulf more than half of this unfortunate country.

Bangladesh - Bay of Bengal - the waters of the Bay of Bengal will act in sweeping mountains to cleanse and transform Bangladesh and the sub-continent of India

Safe Haven - pockets within Northern India

December 2007 . . .

The Punjab – Kashmir mountains are capable of great avalanches which may eradicate this region

Atlantic Ocean

August 2006 . . .

Basin of the Atlantic Ocean dramatically affected. Some parts of the ocean will become land. Respect for Mother Earth and God will be enacted through oceanic movements. Major oceanic adjustment will start from 25 – 30 North Bermuda Triangle and move in sweeping rhythmic waves of destruction.

North Atlantic Ocean – changes will occur first

Dec 2007 . . .

Queen Elizabeth Islands - substantial tectonic and volcanic activity simultaneously and in quick succession – severe disruption to the North Atlantic Current

June 2008 . . .

South Atlantic Ocean - oceanic devastation of the West Coast of Africa will be complete. This Eclipse will carry the impact via the South Equatorial Current up the West Coast of Africa, back to Brazil in south America, Central America and thence via the Gulf Stream to North America and beyond. Rising seas levels, combine with contamination of the gene pool of the Southern ocean will spread viral epidemics, through the food chain to all continents of the world.

Africa

Feb 2006 . . .

Northern Sudan – caught in the crossfire of Middle Eastern politics

August 2006 . . .

North Western African coastline – severe inundation from Atlantic Ocean disruption
Northern Africa from 15 degrees North – challenges to work co-operatively

Mid 2007 . . .

Lower Egypt/Central Africa – warfare, tribal violence, epidemics and virulent disease will overtake Central Africa
Libya – isolation at times of critical need. Diseases will spread rapidly through this region.
West Africa – Senegal, Guinea, Sierra Leone, Liberia, Ivory Coast, Ghana, Togo, Burkina Faso, Benin and Nigeria – rapid spread of virulent disease will see the transition of death of millions of souls. Such is the fate of the majority of West African people.
Zimbabwe – disease in the end will bring about the destruction of many of the African nations

June 2008 . . .

South Atlantic Ocean - oceanic devastation of the West Coast of Africa will be complete.
Angola – the forests of this region carry the seeds of viral epidemics currently affecting this region. Epidemics will spread from Africa to the world at large in Pandemic proportions
Zambia – acceleration of disease
Mozambique – increasing disease, poverty and social dislocation. Unprecedented viral epidemics will destroy the culture and way of life. The strait of water between Mozambique and Madagascar will rise up and swallow this nation.

Safe Havens pockets of Southern Africa will be somewhat unaffected by the global changes

Canada

August 2006

Ontario – Atlantic Ocean inundation into the Great Lakes – widespread devastation
Northern Ontario - People of goodwill need to move to the North of the state in the wilderness
Michigan - Nature will reclaim most of Michigan
Labrador – large scale oceanic inundation and radical temperature change – total transformation
Newfoundland – dramatically reshaped and forever changed.

Safe Haven - Alberta

Safe Haven - Parts of British Columbia - away from Ocean & the Rocky Mountains
Safe Haven Western Canada – live close to the Earth – protected by the Earth

Mid 2007 . . .

Northern reaches inside the Arctic Circle – relatively unsafe – environmental changes of the greatest order await this region.
Hudson Bay – closed by systemic changes of the earth's climate – polar melting/drift
Canada – economically crippled by Arctic melt and the run on effect.
Gulf of St Lawrence – penetrated by the Atlantic Ocean
Baffin Island – geographically isolated and ice-bound.
North West Territories – life will be sustainable -all lines of communication with the outer world will be severed. Heavens will change their hue
British Columbia - severe tectonic and volcanic activity will change most of the topography of West Coast of Canada. This province will experience some of the greatest upheaval of Canada. Relocate to the eastern slopes of the Rockies. West Coast of the Rockies is dangerous

Safe Haven - Manitoba – largely unaffected – region of sanctity and protection for refugees
Safe Haven – Saskatchewan – if they remember to Love thy Neighbor
Safe Haven – Alberta – tens of thousands of refugees

December 2007 . . .

Queen Elizabeth Islands - substantial tectonic and volcanic activity simultaneously and in quick succession – severe disruption to the North Atlantic Current
Quebec - Montreal and Ottawa will be almost completely destroyed by the onslaught of the Atlantic Ocean into the Gulf of St Lawrence. Economic and environmental collapse of the greatest order.

North America

August 2005

Hawaiian Island – tremendous changes – full brunt of the Eastern Pacific’s fury - islands will be razed
Alaska – dramatic faulting on its Western Coast – major land displacement
State of Washington – western ocean fringe will perish; Rocky Mountains – dislocation
Oregon – volcanic capacity to disrupt the Western seaboard time bomb - govt. policies –set for disaster
Missouri – **Mississippi River** disruption – power of water is great
Central or Eastern States of USA – geomorphic faulting - then Mississippi vehicle of destruction & death
Florida – wrath of the ocean and the wind – people who love God should flee
Northern California – the sea will reclaim what is hers

Mid 2006 . . .

Arizona – evacuated because of uncertainty and instability in surrounding areas - re-inhabited at a later date
Line & Hawaiian Islands – thunderous Pacific Ocean tidal waves
West Coast of America – thunderous Pacific Ocean tidal waves
Louisiana – inundated by some of the fiercest hurricanes in living memory. The people of Louisiana will scream for mercy in the face of the forces of water and air.
Maryland – major transformation as a result of severe inundation of the Atlantic Ocean. Doomed
Minnesota - not affected as much by environment change but severe social and economic dislocation. Need to learn to live in the wilderness
Georgia – reconstruction of the East Coast of the United States will severely affect this state.
New York - NYC - destroyed twice, once by oceanic invasion and then by disease
West Virginia – protected from the worst of the oceanic inundation.

Safe Haven - Kansas

Mid 2007 . . .

Entire East Coast of the USA – will be invaded by the Pacific Ocean
East of the Mississippi – by and large devastated on two fronts. Atlantic Inundation and destruction and disease spread by the waters of the Mississippi.
Kentucky – inundation and disease via the Mississippi River – despair and perish
Arkansas – will become a flood plain of the Mississippi River. Radical economic, physical and social upheaval
Southern Carolina – suffer gravely. Children of the Heart should relocate to the heartland of the USA with all speed
West of the Mississippi – substantial tectonic activity, volcanic activity Cascade Ranges and the Sierra Nevada and widespread flooding of the Mississippi River
Idaho – share in the spirit of community or perish
Virginia – some of the greatest changes of the Eastern states. Besieged by refugees from further North and East. Humanitarian crisis of epidemic proportions. Resources will be in short supply. Share or perish.
Iowa – will be untouched by the worst of the changes. Share. Economic and transportation failures.
Utah – great degree of dislocation due to the Rockies. Changes to the West Coast will have a domino effect on Utah. Surge of refugees into this state. Lack of will-to-good means that this region will not survive due to lack of sharing. The worst of human nature will be seen here.
Connecticut – some of the largest scale devastation of the northern states. The cities of this region will be all but razed. Children of the heart should leave with all speed.

Safe Haven - Tennessee – certain degree of protection. However changes brought about as a result of the Mississippi River will require strong communal strength.

Safe Haven – New Mexico – water will be found deep in the mountains –
Prophets/Native Americans will emerge

Dec 2007 . . .

New Brunswick, Nova Scotia and Prince Edward Island – devastating onslaught of the ocean time after time after time. Devastation of the greatest order will impact the NE region of the USA.

Dec 2008 . . .

Pennsylvania – the earth revolts and the ocean overruns the land. Very little will remain.
New Jersey - devastation of a catastrophic nature via the ocean of gigantic proportions followed by disease – lack of 4 Freedoms for all citizens
Delaware – mighty Atlantic will sweep through this state – Children of the Heart begone with all speed.

Illinois – will receive the floodwaters of the Mississippi and the overflow of Lake Michigan. Disease will create a tide of human misery. Assist fellow man.

Mississippi River – changes to the river and its floodplain will bring about the most significant changes to a wide swath of this nation.

Indiana – karma of the Native American people in this region. The current population will be removed and balance restored.

Mid 2007 . . .

Central America

Mexico, Belize, Guatemala, Honduras, Nicaragua, el Salvador, Costa Rica & Panama Oceanic invasion. Great danger from massive tectonic faulting. Need to learn to work together with their neighbouring countries.

West Indies – Cuba, Bahamas, Turks and Caicos Islands, Haiti, Dominican republic, Tobago, Barbados & all islands in the Greater and Lesser Antilles - violent hurricane assault. Gigantean walls of oceanic water will cleanse this region. Those who seek to live in peace with God should flee

Mexico - part of this peninsula will be completely overcome by the mighty waves of the Pacific. Part of the peninsula will break away from the mainland and become submerged.

South America

August 2005 . . .

Galapagos Islands significant environmental change

Feb 2006 . . .

South America – Eastern seaboard large scale devastation from Pacific Ocean tidal waves

South American continent – political and economic collapse and severe geophysical adjustments. Oceans & mountains will reclaim much that is theirs.

Southern portion of South America will be completely refashioned

Andes and most northerly coastline – substantially refashioned

Easter Island - large scale devastation

Peru – severely affected by famine as a result of the failure of the fishing industry. Learn to work within an inter-dependant manner with other neighboring nations.

Brazil – interminable slide into the morass of its own making. Devastation of the largest order will continue

Safe Haven - People of Venezuela will become the seed group for future recolonization of this continent

Mid 2007 . . .

Chile – oceanic coastal invasion – flee to the Andes

Argentina – spared the worst of the Changes – still a certain dislocation and isolation

Patagonia – will not fare well – dramatic weather changes will make this land unlivable

Falkland Islands – windstorms and hurricanes of the greatest velocity. Polar activity will render them inhabitable in the future.

Safe Haven - Paraguay – in the heartland of South America
Safe Haven - Chile pockets of protection high in the Andes – Lake Titicaca

December 2008 . . .

Ecuador – severe disruption to the NW corner of South America – receives the fully fury of the Pacific

Safe Haven - Bolivia – Ships of light descend
